**Systems Software Specialist I (Technical) or Associate Systems
Software Specialist (Technical)**
SACRAMENTO
Permanent — Full-time

The Department of Real Estate (DRE) has an opening in the Sacramento Information Systems Section (ISS) for a Systems Software Specialist I (Technical) or Associate Systems Software Specialist (Technical). DRE is located at 2201 Broadway, Sacramento, CA 95818.

Duties of the position include:

- Provide project lead support for phases of Enterprise Information Systems (EIS) Oracle client/server system.
- Provide on-going support for multiple platforms, applications and interfaces in EIS.
- Oversee testing functions for assigned EIS subsystems and impose quality standards.
- Resolve EIS application and system environment problems.
- Design and develop PowerBuilder modules and Crystal Reports.
- Work with program areas users to define business needs and analyze system requirements and interface configurations.
- Develop requirements documentation and implementation plans.
- Design, program, test and document new and existing multiple tier client/server software applications within EIS using the core software and utilities.
- Provide performance tuning, production simulation, stress testing, and data conversion support for major system development efforts.
- Recommend policies, procedures and tools for creating, classifying and accessing EIS data.

Necessary Requirements:

- Knowledge and experience with multi-tiered client/server and transaction processing technologies.
- Knowledge and experience with SQL, Oracle tools including PL*SQL, SQL*Plus, Oracle and SQL*Server database administration functions, Oracle Designer and Oracle.
- Knowledge of Powerbuilder, Crystal Reports, Microsoft Access, C++, Pro*C and Visual Basic.
- Knowledge and experience with client/server configuration interfaces.

Desirable Qualifications:

- Ability to manage time and activities to complete concurrent assignments timely.
- Ability to work well independently or as a team member.
- Ability to quickly learn, develop, & evaluate new technologies.
- Flexibility and willingness to adapt to changes in priority and/or workload demands.
- Effective communication skills with end users, technical staff, and the vendor community.
- Excellent skills in problem analysis and resolutions.
- Excellent attendance.
